## *FF-Automation joins 4<sup>th</sup> IEEE-GCC conference in Bahrain*

4th IEEE-GCC Conference and Exhibition takes place in Manama Bahrain from November 12-14 2007.

Featuring the theme "Towards Techno-Industrial Innovations" many companies from Gulf area joining the exhibition.

"This is very important venue to introduce our latest products and discuss with key-players on Gulf area. FF-Automation is very happy that we have been invited again to join this exhibition" says Jukka Fredriksson , Managing Director of FF-Automation Oy , Finland.

"It has become an important international event for Bahrain, expected to grow in scale and important drawing interest from the world's leading IT, telecommunications , RTU and SCADA solutions providers and enterprises" he continues.

During the three-day event, FF-Automation introduces its latest products and solutions, sharing practical experience in the field of RTUs (Remote Terminal Units) and SCADA.

The conference has many sessions and more than 40 leading speakers. Please see Keynote speakers information , Invited speakers profiles and Speakers profile from IEEE-GCC website <http://www.ieeegcc.org/> Find also Mr Jouni Paavonen's (FF-Automation's speaker) information from lists among other speakers. Mr Jouni is speaking in conference from latest developments or RTU (Remote Terminal Unit) and communication technologies. There are many technologies what Oil and Gas producers can use to improve data gathering from field equipments as well as controlling pipe lines and other facilities. Companies must improve their operations and wireless technology is one of the key technologies to achieve these targets.

FF-Automation and Information Technology together in 2nd IEEE-GCC 2004 Conference (November 23 - 25, 2004 , Gulf International Convention and Exhibition Centre Manama, Bahrain ) Mr Adnan Dardas (Left , Chairman , Information Technology and Telecom , Kingdom of Saudi Arabia ) . Mr Jukka Fredriksson (Right , Managing Director , FF-Automation Oy)
